RAHUL MISHRA

Database Developer || Application Support
Noida, Sector 45 | 9718399103 | rjmishra51194@gmail.com | LinkedIn/Portfolio

SUMMARY

Application Support and Database Developer with over 5 years of experience in designing, coding, and implementing database applications. Skilled in writing SQL queries, Optimization, stored procedures, functions. Adept at integrating database solutions with front-end applications and ensuring efficient data quality. Strong problem-solving skills and attention to detail, with a track record of delivering high-quality, scalable database solutions in fast-paced environments.

EXPERIENCE

Sr. Software Engineer || Database Developer || L2 Support team

Wipro
2021 – Present | Noida

- Designed and implemented complex database structures to support the Retirement Benefits Solution, optimizing data processing and storage.

- Debugging and providing solutions for Ad-hoc issue from Clients

- In-Depth writing of RCA for the issue, so that in future it can be used a reference for team.
- Developed PL/SQL stored procedures, functions, and triggers to handle data processing, improving system performance by 20%.

- Collaborated with application developers to integrate database solutions with front-end applications, ensuring seamless data flow.

- Analyzed and optimized queries for efficient data retrieval, enhancing the user experience.

- Implemented security measures to safeguard sensitive data, ensuring compliance with industry standards.

Software Engineer || Database Support

Skilrock Technologies
2018 – 2021 | Gurgaon

- Developed and managed databases for the Draw Game Engine (DGE) product, handling ticket data and winning data efficiently.
- Created and maintained stored procedures, triggers, and functions for data management in Retail Management System (RMS).
- Implemented data validation and error-handling mechanisms to ensure data integrity across multiple client environments.
- Optimized database performance, reducing data processing time by 15% through query optimization and indexing strategies.
- Worked closely with the development team to troubleshoot and resolve database-related issues.

EDUCATION

B.Tech in Computer Science Engineering

UPTU
2016 | Greater Noida
I.T.S Engineering College

SKILLS
- Database Design and Data Modeling
- Stored Procedures, Functions, Triggers
- Query Optimization and Performance Tuning
- SQL Query Writing and Debugging
- Data Analysis and Reporting
- API Integration with Databases
- Database Security and Compliance
- Tools: SQL Developer, Postman, JIRA, SQL Server
- Manual Quality Assurance

LANGUAGES
- English (Proficient)
- Hindi (Native)
